

Caleigh Alicyn Curley

ccurley@arizona.edu

RESEARCH INTERESTS

**Public Health Policy · Health Equity · Community Wellness · Food Sovereignty ·
Community Engaged Research · Decolonial Science · Indigenous Data Governance**

CURRENT POSITIONS

Research Program Administrator Tucson, AZ
University of Arizona *Summer 2022-Present*

Collaborates with the Intertribal Council of Arizona (ITCA) and the Arizona Department of Health to improve Indigenous data governance policies throughout Arizona.

Program Coordinator Tucson, AZ
University of Arizona *Spring 2024-Present*

Collaborates with Northern Arizona University and representatives of the Arizona, New Mexico, and Utah State cancer registries, Indian Health Service, and the Navajo Epidemiology Center to enhance cancer observations and promote cancer prevention efforts on the Navajo Nation.

EDUCATION

Northern Arizona University Flagstaff, AZ
B.S. *Biomedical Sciences. Minor: Chemistry.* 2014-2018

Northern Arizona University Flagstaff, AZ
MPH. *Health Promotion with Indigenous Health Emphasis* 2019-2020

University of Arizona Tucson, AZ
DrPH. *Public Health Policy and Management. Minor: Health Promotion.* 2021-Present

RESEARCH EXPERIENCE

Research Technician Flagstaff, AZ
Northern Arizona University *Winter 2020-Fall 2023*

Collaborated with the Navajo Epidemiology Center, the Community Outreach Patient Empowerment program, and other Tribal entities to study the impact of the 2% tax on unhealthy foods on the Navajo Nation.

Research Consultant Flagstaff, AZ
Northern Arizona University *Summer 2021*

Partnered with Diné Food Sovereignty Alliance to educate health champions within the Navajo Nation on developing a community wellness proposal using funds from the 2% tax on unhealthy foods.

Graduate Research Assistant Flagstaff, AZ
Northern Arizona University *Fall 2019-Fall 2020*

Collaborated with the Navajo Epidemiology Center, the Community Outreach Patient Empowerment program, and other Tribal entities to determine the fidelity and implementation of a 2% tax on unhealthy foods on the Navajo Nation.

Research Specialist

Northern Arizona University

Flagstaff, AZ

Fall 2018-Summer 2019

Collaborated with the Navajo Epidemiology Center to conduct community needs assessments and prepare for the second iteration of the Navajo Nation Behavior Risk Factor Surveillance Survey (NNBRFSS).

INTERNSHIPS

Research Intern

National Institutes of Health

Phoenix, AZ

Summer 2018

I worked under the mentorship of Dr. Leslie Baier to identify the heritable basis for type 2 diabetes and obesity. I received training in molecular biologic and molecular genetic techniques including DNA sequencing, Polymerase Chain Reaction (PCR), gel electrophoresis, and gene cloning.

Research Intern

Northern Arizona University

Flagstaff, AZ

Fall 2016-Spring 2018

I worked under the mentorship of Dr. Fernando Monroy to understand the effects of binge alcohol drinking on the innate immune system. I received training in biologic and molecular genetic techniques, biosafety practices, laboratory area flow, and practices to minimize contamination.

Research Intern

Massachusetts General Hospital

Boston, MA

Summer 2017

I worked under the mentorship of Dr. Cesar Castro to identify an early, noninvasive diagnosis of pancreatic ductal adenocarcinoma (PDAC). I received training in laser-based lab techniques, such as flow cytometry, to conduct bead-based extracellular vesicle analyses.

Public Health Intern

Tsehootsooi Medical Center

Fort Defiance, AZ

Summer 2016

Worked with the Partnership to Improve Community Health department to enhance food sovereignty within the Navajo Nation through community gardens and hydroponic systems.

Public Health Intern

Tsehootsooi Medical Center

Fort Defiance, AZ

Summer 2015

Worked with the Health Promotion and Disease Prevention department to enhance physical activity opportunities within the Navajo Nation through weekly community walks/runs.
